Singapore: World City Kim Inglis
2014-02-18 With stunning photographs and insightful commentary this travel pictorial and Singapore travel guide captures the dynamism of a remarkable Pacific nation. In just a few short decades, Singapore has transformed itself from a tiny island off the coast of mainland Asia into a global superpower in banking, IT, education, biotech, transportation and many other fields. The fascinating story of how this tiny city-state which has no hinterland, no natural resources, and a relatively small population has achieved success is told in this book. Singapore's history as a British colonial port, its dynamic multi-ethnic

population, and its innovative governmental and social structures, are a part of the story. But there are others as well. How Singapore became a regional hub for finance, shipping and air travel, and now also for the arts, sport and leisure—are all showcased in dynamic detail, with over 300 full-color photographs to illustrate graphically how this small island functions like a well-tuned racing machine. Author Kim Inglis, a journalist and long-time local resident, leads the reader on a series of explorations through Singapore's most notable districts and neighborhoods, explaining the growth and importance, and showcasing what they have to offer the visitor. Included are many lesser-known corners of the island which very few visitors ever get to see!

These journeys will inspire - whether you are an experienced cyclist or just getting started.

The book is organised by continent. In the Americas we join a family bikepacking trip in Ecuador; we pedal the Natchez Trace Parkway and stop at legendary music spots; we ride the Pacific Coast Highway in Oregon and California; go mountain biking in Moab and Canada; and explore the cities of Buenos Aires and New York by bicycle. European rides include easy-going trips around Lake Constance, along the Danube and the Loire, and coast-to-coast routes; routes in Tuscany, Spain and Corsica; and professional journeys up Mt Ventoux and around the Tour of Flanders. In Asia, we venture through Vietnam's valleys; complete the Mae Hong Son circuit in northern Thailand; cross the Indian Himalayas; and pedal through Bhutan. And in Australia and New Zealand we take in Tasmania and Queensland by mountain bike; cycle into Victoria's high country and around Adelaide on road bikes; and try

some of New Zealand's celebrated cycle trails. Each ride is illustrated with stunning photography and a map. A toolkit of practical details - where to start and finish, how to get there, where to stay and more - helps riders plan their own trips. There are also suggestions for three more similar rides around the world for each story. Each piece shows how cycling is a fantastic way to get to know a place, a people and their culture.
